

HEATH & SHERWOOD

NEW HEATH & SHERWOOD WEBSITE LAUNCHES JAN. 17

The Legend Continues

Good day John Q. Sample,

We are very excited to announce that the brand new Heath & Sherwood website will be launched to the world on Friday, January 17, 2014.

Created by Toronto agency, Lime Advertising Inc., this comprehensive new site has been meticulously designed to portray our company in a manner reflecting its position on the world stage. Capturing the full impact of our legendary heritage, it presents the complete history of the company as never told before -- performance spanning nearly nine decades -- and features all products and services with standardized quote forms for simpler requests.

Being part of "The Legend" yourself, we hope you are as excited about the new Heath & Sherwood website as we are. It is the site that will empower our mission to extend our lead as the No. 1 supplier of samplers, sampling systems, tuyère line management equipment, and custom-machined and fabricated products.

I personally invite you to take a look as soon as you can and let us know what you think.

Sincerely,

Phillip A Cancilla
Sales & Marketing Manager
